ANNOUNCEMENT

Our Golf Department, added July 1, 1922, has more than fulfilled our expectations and we wish to thank our customers for their support. We have proved that it is possible to sell strictly first quality products at prices considerably lower than those heretofore asked. In pursuance of this policy we have still further reduced our prices wherever possible.

Our expectations of a large amount of business this spring have prompted us to buy heavily of both American and foreign grasses. These we now have in stock, and can assure our customers of prompt service. The department deals with all matter pertaining to golf course construction and maintenance and is under the personal direction of Mr. P. S. Brown, whose services are at your disposal at all times.

We publish a monthly bulletin, "*The Perfect Green*," containing valuable data and suggestions for the building and maintenance of golf courses. This will be mailed gratuitously upon request.
